

SHARESYNC FROM inRsite

Sharesync combines file backup with business grade sync and share for complete file management.

Sharesync is an easy-to-use file management service which also helps secure and manage your critical business data.

Sharesync provides mobile access to files from virtually any device, makes it easy to securely share files inside and outside the company, and backs up files as soon as changes are made.

Employees benefit from being able to access files when they need to and easily share and collaborate on files both inside and outside the company. Business managers will like Sharesync because the comprehensive security features, permissions-based sharing and 99.999% uptime mean there's no sacrifice in control, security or reliability.

- **File sync.** Access to the latest versions of files from desktops, laptops, smart phone, tablets, and the web
- **File backup.** Real-time (not scheduled) backup for user files, including files stored on Desktop and My Documents folder, with quick restore to any previous version
- **Collaboration.** Securely share files and folders both inside and outside the company. Co-edit files in Office and Office Online.
- **Business continuity and disaster recovery.** Sharesync keeps operations up and running across a number of data loss scenarios, from stolen devices to hardware failure to ransomware outbreaks.
- **Business grade features.** Data is protected by at-rest and in-transit encryption, integrates with Office, Outlook and Office 365, and is backed by a 99.999% uptime SLA.

SEE HOW SHARESYNC COMPARES TO OTHER FILE MANAGEMENT SOLUTIONS:

Type of Service	Example	Why Sharesync Wins
Backup solutions	Carbonite, Crashplan, Mozy	Sharesync gives backed up files added benefits of mobile access and the ability to collaborate on files and even co-edit files in real-time. Sharesync also backs up files as soon as changes are made, which eliminates versioning gaps as files change multiple times during a day.
File sync and share services	Dropbox, Box, OneDrive	<p>Sharesync is as easy and intuitive to use while offering greater security, control, and integration.</p> <p>Sharesync includes the added benefit of providing file backup and restore capabilities, as well as the ability to prevent the permanent deletion of files</p>
Traditional sharing tools	Email and attachments, file servers, FTP servers, SharePoint	<p>Sharesync is easier to use for mobile and traveling employees and offers more efficient collaboration features.</p> <p>Recipients of files shared with Sharesync will have a simpler time accessing those files.</p> <p>Sharing permissions can be adjusted at any time.</p>
